* Looking for an Internship in Software Development

Education

McGill University

Bachelor of Science

Majoring in Computer Science
Sept. 2019 - May 2022 (U2)

John Abbott College (CEGEP)

Science Program - Honours in English
Graduated December 2018

Relevant Courses:

- Intro. To Computer Science Java
- Intro. To Software Systems C
- Algorithms & Data Structures
- Software Design Java
- Prog. Languages & Paradigms OCaml
- Software Engineering Project
- Intro. to Programming in C# C#

About Me

I am a CS student and technology enthusiast looking to explore the technology field. I enjoy learning about the newest tech related to VR, Wearable Devices and the its crossover with sports!

Languages Spoken:

English

French

Skills

Front-End Development:

JavaScript

ReactJS

Redux

Ionic Framework

Bootstrap

UI/UX Design

HTML5, CSS3, SCSS

Website Building

Google Maps API

Back-End Development & Databases:

JavaScript

NodeJS

ExpressJS

MongoDB

Firebase

NoSQL

DigitalOcean Hosting

Docker

SocketIO

Stripe Payment Integration

Mobile Development:

Android & iOS via Ionic Framework

Ionic AppFlow

Adalo

Other Development Experience with:

Java

Springboot

C

C#

Python

Flask

Git

GitHub

Work Experience

Software Developer & Technical Lead · KargoROO Inc.
May - September 2020

- Built a fully functional and scalable mobile app platform **from the ground up** as the **sole developer** using KargoROO's vision of on-the-way deliveries and **deployed it** to the Apple and Google Play Store.

UI/UX Design Frontend Backend Deployment 20000+ Lines of Code
React/Redux NodeJS Firebase DigitalOcean Ionic Framework
Google Maps API Stripe Integration ...

- Built KargoROO's informatic website: *kargoroo.ca*

Website Design Bootstrap Firebase

- Managed all company technical aspects of developing their mobile application platform.

Google Cloud Domains Technical Communications

Online Certificate Courses

Harvard CS50x - Intro. To Comp. Sci. via edX - 100+hrs

January - February 2019

C Python Flask SQL HTML CSS

MERN Stack Front to Back via Udemy - 15hrs

May 2020

ReactJS Redux MongoDB ExpressJS NodeJS

University of Jerusalem's Nand2Tetris - 30+hrs

February 2019

Computer Architecture Computer Hardware Assembly HDL

JS Algorithms & Data Structures via FreeCodeCamp - 15hrs

April 2019

JavaScript ES6 OOP REGEX

+ 3 More (JavaScript/React/FreeCodeCamp) - 50+hrs
